Ancient Monuments and Archaeological Areas Act 1979
Scheduled Monument Consent Decision Notice

Case ID	**201504541**	**Index No**	**M6689**
Scheduled Monument	**Forth and Clyde Canal, Port Dundas canal basin, Glasgow**		
Location/Address	**City of Glasgow**		
Proposed Works	**Site clearance and site geological investigation at Port Dundas Canal Basin, Glasgow**		

Historic Environment Scotland hereby **part-grant** scheduled monument consent for the works detailed below, subject to the attached conditions.

Consented Works:

a) Site Investigation works (rotary boreholes and trial pits/trenches)

as described in your application dated 19 October and the following supporting documents:

1) Written Scheme of Investigation Archaeological Watching Brief on Geotechnical Site Investigation Works, Forth & Clyde Canal, Port Dundas Canal Basin, Glasgow (CFA Archaeology 2015).
2) Indicative Ground Investigation Layout - Preliminary (Waterman 2015)
3) Port Dundas, Glasgow Historic Environment Desk-Based Assessment (Waterman 2015).
4) Port Dundas Scheduled Monument Consent Application: Justification (Farrans 2015).
5) Port Dundas Scheduled Monument Consent Application: Methodology for site clearance and site investigation methodology (Farrans 2015).
6) Port Dundas Supplementary Guidance (progress at 27 July 2015: slides).
7) Port Dundas SMC Application Programme

Conditions referred to above

1. Reports detailing the results of the works (geotechnical and archaeological) and numbered copies of all archaeological photographs with a register describing what they depict, should be submitted to Historic Environment Scotland no longer than 16 weeks after site works are completed.

Reason: In order that an accurate record of the monument and works to it is maintained.

Historic Environment Scotland
Àrainneachd Eachdraidheil Alba

Reasons for the Decision:

Subject to compliance with the schedule of conditions, the works proposed are considered acceptable in meeting the terms of national policy for scheduled monuments, and also accounting for other material considerations.
