

Case information

Case ID	300017574		
File Reference	HGH/B/LB/142		
Name of Site	Redhouse Castle and Gateway		
Local Authority	East Lothian		
National Grid Reference	NT 46264 77070		
Designation No. (if any)	LB6563		
Designation Type	Listed Building	Current Category of Listing	A
Case Type	Removal		
Received/Start Date	2014 date of project		
Decision Date	14/12/2015		

1. Decision

Remove: Remove building from the List.

2. Designation Background and Development Proposals

2.1 Designation Background

Redhouse Castle and Gateway is a category A building and was listed on 05/02/1971. It is in Aberlady parish which was resurveyed on 27/01/1993.

Redhouse Castle is also a scheduled monument (SM775). The current entry in the Schedule is dated 20/11/1969.

2.2 Development Proposals

Not checked as part of this project.

3. Assessment

3.1 Assessment information

The building was considered for removal as part of the Dual Designation project. This is a nationwide project to review structures which have in the past been both listed as buildings of special architectural or historic interest and scheduled as monuments of national importance. This 'dual designation' is being phased out and structures are being assigned to being either listed or scheduled depending on their individual circumstances. Removing this dual designation will help to provide clarity for the future management of the sites.

The site was not visited.

The present assessment is desk-based, using available information and has included reference to recent photographs.

3.2 Assessment against designation criteria

An assessment against the Listing criteria was not carried out as the importance of the structure will continue to be recognised through its designation as a scheduled monument.

The designation criteria are found in the Scottish Historic Environment Policy (SHEP), pp. 71-85. <http://www.historic-scotland.gov.uk/shep-dec2011.pdf>

3.3 Other considerations

As part of the Dual Designation project, we have reviewed the structures at this site and concluded that scheduling is the most appropriate mechanism to secure the preservation of this structure as a monument of national importance.
