1. Decision

Remove: Remove building from the List.

2. Designation Background and Development Proposals

2.1 Designation Background

Balmerino Abbey, Conventual Buildings is a category A building and was listed on 08/08/1973. It is in Balmerino Parish.

Balmerino Abbey is also a scheduled monument (SM827). The entry was added to the Schedule 28/04/1920 and was last amended 11/06/2010.

2.2 Development Proposals

Not checked as part of this project.

3. Assessment

3.1 Assessment information

The monument was considered for removal as part of the Dual Designation project. This is a nationwide project to review structures which are both listed as buildings of

special architectural or historic interest and scheduled as monuments of national importance. Where appropriate the 'dual designation' of structures is being removed and they are being listed or scheduled depending on their individual circumstances. Removing dual designations will help to provide clarity for the future management of sites.

The site was not visited and the present assessment is desk-based, using available information and has included reference to recent photographs.

The site comprises the standing fabric, carved stones, earthwork and buried remains of Balmerino Abbey, a Cistercian complex founded in early 13th century. As the remains of a complex monastic site with high potential for associated archaeology Balmerino Abbey is more appropriately designated as a scheduled monument rather than listed building.

3.2 Assessment against designation criteria

An assessment against the Listing criteria was not carried out as the importance of the structure will continue to be recognised through its designation as a scheduled monument.

The designation criteria are published in the Historic Environment Scotland policy statement June 2016, Annex 1 (Scheduling), pp. 48-50 and Annex 2 (Listing), pp. 51-53. <https://www.historicenvironment.scot/advice-and-support/planning-and-guidance/legislation-and-guidance/historic-environment-scotland-policy-statement/>

3.3 Other considerations

As part of the Dual Designation project, we have reviewed the structures at this site and concluded that scheduling is the most appropriate mechanism to secure the preservation of this structure as a monument of national importance.
