2. Designation Background and Development Proposals

2.1 Designation Background

By Glenborrodale, Camus nan Geall burial ground is a category B building and was listed on 29/05/1985. It is in Ardnamurchan parish.

Cladh Chiarain, burial ground and standing stone, Camas nan Geall is also a scheduled monument (SM7783). The current entry in the Schedule is dated 28/04/1999.

2.2 Development Proposals

Not checked as part of this project.

3. Assessment

3.1 Assessment information

The monument was considered for removal as part of the Dual Designation project. This is a nationwide project to review structures which are both listed as buildings of

special architectural or historic interest and scheduled as monuments of national importance. Where appropriate the 'dual designation' of structures is being removed and they are being listed or scheduled depending on their individual circumstances. Removing dual designations will help to provide clarity for the future management of sites.

The site was not visited and the present assessment is desk-based, using available information and has included reference to recent photographs.

The site comprises a burial ground of medieval or post-medieval date and a standing stone of prehistoric date; it has been inscribed at a much later date with a cross and other motifs. Due to the potential for associated prehistoric archaeology, this site is more appropriately designated as a scheduled monument rather than a listed building.

3.2 Assessment against designation criteria

An assessment against the Listing criteria was not carried out as the importance of the structure will continue to be recognised through its designation as a scheduled monument.

The designation criteria are published in the Historic Environment Scotland policy statement June 2016, Annex 1 (Scheduling), pp. 48-50 and Annex 2 (Listing), pp. 51-53. <https://www.historicenvironment.scot/advice-and-support/planning-and-guidance/legislation-and-guidance/historic-environment-scotland-policy-statement/>

3.3 Other considerations

As part of the Dual Designation project, we have reviewed the structures at this site and concluded that scheduling is the most appropriate mechanism to secure the preservation of this structure as a monument of national importance.
