4 Summary of proposed works (max 20 words)

Replacement of cope stone and repair to surrounding stone work.

5 Description of proposed works

The cope stone situated on the North wall East of an escape ladder has become broken a delaminated throughout. The area has become unsafe to walk on and due to its position there is concern that loose pieces of stone may fall if the ladder was to be used. In order to stabilise the stone work a full replacement stone is required dimensions 650x930x400. The new stone will be colour matched using St Bees sandstone and bedded in with a lime mortar. The surrounding stone work will then be pointed up using lime mortar.
