4 Summary of proposed works (max 20 words)

Erect temporary signage detering people from entering structure 12

Historic Environment Scotland - Scottish Charity No. SC045925

5 Description of proposed works

The west gable wall has developed a lean and concern was raised about its safety. We would like to erect temporary signage to prevent people from entering this particular structure (12). These would be signs on stakes which would be driven into the ground by approximately 1 ft. We are happy to be advised at how many locations around this building signage is wanted. There are 2 door openings on the south wall (from where people could easily access from a maintained path. There are also low walls on the north and east sides so perhaps 1 additional sign on the east wall (which is a short end) and 2 on the north wall (a long, low wall). Although no maintained paths border the east or north walls, they are both low having toppled in the past and entry could be gained at either side.

7 Other information relevant to application

Following this temporary signage, we would also like to arrange a site meeting and agree what is the most apporopriate management of this site for the future. This is a popular visitor attraction and it would be beneficial to all to resolve this quickly and in a manner that is sensitive to the site and its setting.
