3 Pre-application discussions

Have you undertaken pre-application discussions with Historic Environment Scotland? (If yes, please give details below)	**Y** ☒ **N** ☐

The Estate identified that the cairn would benefit from the cutting down of the tree. The method was discussed with Louise Roger, HES Heritage Management Field Officer, after her site visit, and with input from Oliver Lewis, HES Senior HM Officer.

4 Summary of proposed works (max 20 words)

The self sown conifer on the summit of Torlum cairn will be cut down and removed from the site.

5 Description of proposed works

The Sitka tree growing on the summit of the cairn, now approx 4 m high, will be cut down at its base. Any branches which are likely to cause damage to the cairn surface as the tree falls will be lopped prior to felling. The tree will then be cut into sections and all of the material will be removed from the scheduled area by hand. The stump will be left in situ to rot. A photographic record of the site will be taken after the tree is felled and removed and submitted to HES.
