19 February 2016

Dear Sirs

Ancient Monuments and Archaeological Areas Act 1979
The Scheduled Monument Consent (Notification of Applications) Direction 2015
Area excavation and fieldwalking within the scheduled area – SERF Project
Statutory Designation: Millhaugh, enclosure and pit alignment, 300m E of
Designation Reference: M5776

A scheduled monument consent application was received by us on 29 December for an area excavation and fieldwalking within the scheduled area, which affects the scheduled monument known as **Millhaugh, enclosure and pit alignment, 300m E of**.

We are minded to grant scheduled monument consent for the works contained in the application. In accordance with paragraph 2 of the above Direction, we are notifying Scottish Ministers of our intention. Our reasons, which are set out in our Report on Handling, are:

The intervention should be viewed as works as set out in both Part 1 Section 2 of the AMAAA 1979 and under section 3.4 of SHEP. The works are in the form of destruction of part of the monument.

The application, which forms part of a long running research and training project, is more than the minimum necessary to conserve what is culturally significant of this monument.

This application is mostly compliant with SHEP 3.19, 3.20 and 3.22 in that there is a clear public benefit and that it is carefully considered, is based on good authority, sensitively designed and properly planned.

A single condition is necessary to apply grant of scheduled monument consent covering the following topics: the suitability and experience of the project staff.

Condition 1 is required to ensure that the supervisory staff are suitably experienced and qualified to carry to out the work.
