

Edinburgh Castle

Redcoat Existing Roof Photos

Onsite photographs showing existing roof line from front of Redcoat Cafe.

Existing plant extract can be seen in grey in central roof valley in photographs 1, 2 and 3. Plant extract comes from basement level.

Moving round to courtyard in front of Redcoat Cafe the existing plant extract disappears from view and cannot be seen from approach seen in photographs 4 and 5.

Our proposed extract will be even less visible as significantly smaller in size.

BENUGO

Edinburgh Castle

Redcoat Proposed Roof Photos

Wide view taken from balcony below Mons Meg Cannon.

Proposed location of pizza oven extract is circled in a red dashed line.

Flue can be colour matched to either the existing plan flue or to the existing slate roof for minimal visibility from above only.
