Non-Statutory Register Code:

Site Report

WoSASPIN 21877

NS 4656 7247

Canal Lock: standard early 18th century lock on Forth and Clyde Canal, without arms and with steel reinforcement.

Visited and photographed by J R Hume, University of Strathclyde, 30 April 1966.

Information from NMRS MS/749 (Dunbartonshire, Old Kilpatrick parish, Canal Lock), photographic prints attached.

The new Erskine Bridge passes high above this lock, known as the Old Kilpatrick Lock or Lock 37.

The Forth and Clyde Canal Guidebook 1991.

NS 4656 7267.

This lock, known as the Old Kilpatrick Lock, has been fully restored.

H Brown 1997.
