Ancient Monuments and Archaeological Areas Act 1979
Scheduled Monument Consent Decision Notice

Case ID	**201506111**	**Index No**	**M5776**
Scheduled Monument	**Millhaugh,enclosure and pit alignment 300m E of**		
Location/Address	**Perth and Kinross**		
Proposed Works	**Archaeological excavation in Jun/Jul 2016 - SERF Project**		

Historic Environment Scotland hereby **grants** scheduled monument consent for the works detailed below, subject to the attached conditions.

Consented Works:

a) Stripping topsoil from a large area 80m x 30m (2400m²), followed by targeted excavation and recording
b) Fieldwalking

as described in your application dated 29 December 2015 and the following supporting documents:

1) Research Design

Conditions referred to above

1. The work on site shall not commence until Historic Environment Scotland has agreed in writing the management and supervisory structure of the excavations, including details of the experience and skills of the personnel involved.

Reason: to ensure that excavations are undertaken by suitably qualified and experienced staff and to ensure that the excavations are adequately monitored.

Reasons for the Decision:

Subject to compliance with the schedule of conditions, the works proposed are considered acceptable in meeting the terms of national policy for scheduled monuments, and also accounting for other material considerations.
