

Case information

Case ID	300017766		
File Reference	AMH/2799/16		
Name of Site	Carron Bridge, Takmadoon Road		
Local Authority	North Lanarkshire		
National Grid Reference	NS 74100, 83500		
Designation No. (if any)	SM2799		
Designation Type	Scheduled Monument	Current Category of Listing	N/A
Case Type	Removal		
Received/Start Date	2014 date of project		
Decision Date	23/03/2016		

1. Decision

Remove: Remove monument from the Schedule.

2. Designation Background and Development Proposals

2.1 Designation Background

Carron Bridge, Takmadoon Road is scheduled monument SM2799. The current entry in the Schedule is dated 04/03/1969.

Carron Bridge is also a category B listed building (LB11749) and was listed on 14/05/1971. It is in Kilsyth Parish which has not been resurveyed.

2.2 Development Proposals

Not checked as part of this project.

3. Assessment

3.1 Assessment information

The monument was considered for removal as part of the Dual Designation project. This is a nationwide project to review structures which are both listed as buildings of special architectural or historic interest and scheduled as monuments of national

importance. Where appropriate the 'dual designation' of structures is being removed and they are being listed or scheduled depending on their individual circumstances. Removing dual designations will help to provide clarity for the future management of sites.

The site was not visited and the present assessment is desk-based, using available information and has included reference to recent photographs.

The bridge remains in use as a road, therefore listing is the more appropriate designation.

3.2 Assessment against designation criteria

An assessment against the Scheduling criteria was not carried out as the importance of the structure will continue to be recognised through its designation as a listed building.

The designation criteria are found in the Scottish Historic Environment Policy (SHEP), pp. 71-85. <http://www.historic-scotland.gov.uk/shep-dec2011.pdf>

3.3 Other considerations

As part of the Dual Designation project, we have reviewed the structures at this site and concluded that listing is the most appropriate mechanism to secure the protection of this structure as a building of national importance.
