

The monument known as Stiddrig Cairn, long cairn and cairn comprises the remains of two burial monuments, a long cairn of Neolithic date and a cairn of early Bronze-Age date. These are both visible as upstanding remains, the long cairn a partially grass-covered stone-and-earth mound and the cairn a grass-covered mound. The monument is located at 260m above sea-level within a forestry clearing. The two discrete areas to be scheduled are circular and polygonal on plan, to include the visible remains and an area around them within which evidence relating to their construction, use and abandonment may survive. The scheduled area extends up to but specifically excludes the above-ground elements of the post-and-wire fence on the W side of the circular cairn, to allow for its maintenance. The monument, which lies in the Parish of Kirkpatrick-Juxta and the County of Dumfries as shown in red on the Plan annexed and executed as relative hereto

[REDACTED], is hereby included in the Schedule of Monuments appearing to the Scottish Ministers to be of national importance compiled and maintained by them under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Subscribed by Malcolm Cooper, Chief Inspector with Historic Scotland, being an officer of the Scottish Ministers at Edinburgh on the 16 day of MAY Two thousand and ten, before this witness Mairi H Davies, of Longmore House, Salisbury Place, Edinburgh.
