THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Black Rig, linear earthwork N of Kingside Loch, comprises the remains of a linear earthwork, a bank and ditch. The area to be scheduled is based on a 30m wide corridor centred on the crest of the earthwork, to include the bank, flanking ditch and an area on either side where evidence relating to their construction and use may be expected to survive. This area narrows for a stretch approximately 150m long towards its S end, where forestry works immediately adjacent to the earthwork will have damaged or destroyed the archaeological remains on its E side. The monument, which lies in the Parish of Ettrick and the County of Selkirk as shown outlined in red on the Plan annexed and executed as relative hereto and [redacted] is hereby included in the Schedule of Monuments appearing to the Scottish Ministers to be of national importance compiled and maintained by them under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Subscribed by Sheenagh Adams, Director of Heritage Policy with Historic Scotland, being an officer of the Scottish Ministers at Edinburgh on the 19th day of December Two thousand and two, before this witness Lesley Macdonald, of Longmore House, Salisbury Place, Edinburgh.
