THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979 3209
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Antonine Wall, fort and shell middens 240m WSW of The Tower, Inveravon comprises a stretch of the Antonine Wall and a Roman fort surviving as buried remains. The monument also includes part of a large cluster of mesolithic shell middens. The line of the Antonine Wall ditch appears as a linear cropmark on aerial photographs while the buried remains of the fort have been located through excavation. Approximately 230m in length, this stretch of the Antonine Wall runs from a point approximately 140m west of The Tower to a point 110m north of Polmonthill Cottage. The shell middens appear as light-coloured spreads of shells visible on aerial photographs. The area to be scheduled is irregular on plan, to include the remains described and an area around them within which related material may be expected to be found. The scheduling specifically excludes all post-and-wire fences, chain-link fences and field-gates to allow for their maintenance. The scheduling boundary goes up to but does not include the metal fence around the gas governor. The monument, which lies in the Parish of Bo'ness and Carriden and the County of West Lothian as shown in red on the Plan annexed and executed as relative hereto [redacted], is hereby included in the Schedule of Monuments appearing to the Scottish Ministers to be of national importance compiled and maintained by them under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Subscribed by Malcolm Cooper, Chief Inspector with Historic Scotland, being an officer of the Scottish Ministers at Edinburgh on the 25 day of JUNE Two thousand and ten, before this witness Lorna Fairholm, of Longmore House, Salisbury Place, Edinburgh.
