THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979 4027
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Hill of Caldback, chambered cairn, Unst comprises the remains of a chambered cairn of the Neolithic period, built probably between 4000 and 2500 BC. It is visible as a partly turf-covered, sub-circular structure built mainly of large stones. The cairn stands at 105m OD on the level summit of the Hill of Caldback, on the island of Unst. The area to be scheduled is a circle on plan, measuring 30m in diameter. This includes the remains described above and an area around them within which evidence relating to the monument's construction, use and abandonment may survive. The above-ground elements of the post-and-wire fences and a telegraph pole are excluded from the scheduling to allow for their maintenance. The monument, which lies in the Parish of Unst and the County of Orkney and Zetland as shown in red on the Plan annexed and executed as relative hereto [redacted] is hereby included in the Schedule of Monuments appearing to the Scottish Ministers to be of national importance compiled and maintained by them under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

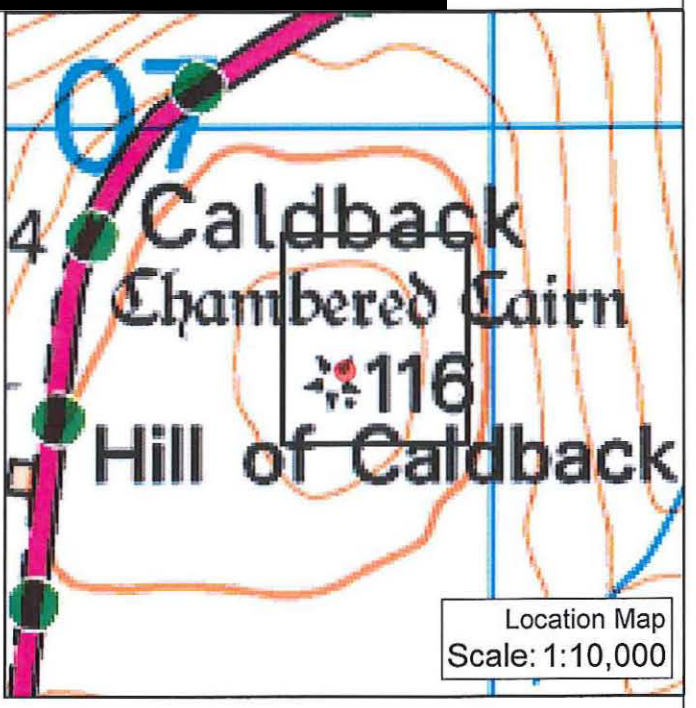

Subscribed by Barbara Cummins, Director of Heritage Management with Historic Scotland, being an officer of the Scottish Ministers at Edinburgh on the 31st day of October Two thousand and twelve, before this witness Victoria Murray, of Longmore House, Salisbury Place, Edinburgh.
