THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Meall Beag, settlement and field systems comprises a group of three settlements and their associated field systems lying on the SW, S and SE slopes of Meall Beag. The westernmost settlement consists of the remains of four circular stone-walled houses, all of double walled "Dalrulzian" type varying in diameter from 10m to 16.5m between the centres of the outer walls. The middle settlement comprises the remains of four circular houses; one is a "Dalrulzian" type 17m in diameter, another is of single wall type 9m in diameter. The third and fourth houses form an unusual double "Dalrulzian" type with an attached yard. The eastern settlement also comprises four houses, two of "Dalrulzian" type 12m and 14m in diameter respectively, and two of single wall construction, 8m and 9m in diameter. The field system, which links the three settlements, is marked by substantial banks, lynchets and clearance cairns. The features are most easily visible in those areas clear of heather. An approximately "L"-shaped area measuring a maximum of 1240m long (from E to W) and between 360m and 80m wide is proposed for scheduling, to include the three settlements and their associated common field system. The monument, which lies in the Parish of Glenisla and the County of Angus as shown outlined in red on the Plan annexed and executed as relative hereto and which forms part of the subjects

[redacted]

is hereby included in the Schedule of Monuments appearing to the Secretary of State for Scotland to be of national importance compiled and maintained by him under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Given under the Seal of the Secretary of State for Scotland.
