**THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979
ENTRY IN THE SCHEDULE OF MONUMENTS**

The monument known as Droop Hill, cairns 1250m SW of Inches comprises a group of at least 30 well preserved cairns measuring between 1.5m and 6.5m across and up to 0.4m high. They have been formed by the clearing of ground for agriculture in prehistory; experience shows that the post holes of timber buildings may survive around or between them, and that a proportion of the cairns may contain human burials. The area to be scheduled measures a maximum of 360m NW to SE by 195m transversely, to include the cairns and an area between and around them to include remains of activities associated with their use. The monument, which lies in the Parish of Glenbervie and the County of Kincardine as shown outlined in red on the Plan annexed and executed as relative hereto
