THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Scotston, settlement and field system 700m NNW of comprises the remains of a settlement and field system of the later Bronze Age, some 2500 to 3500 years old. There are the remains of at least eight circular houses, surviving as low turf covered banks, ranging in size from 10m to 18m across. One of the houses is a double walled "Dalrulzion" type. There are also the remains of at least three other possible structures. The field system comprises the extensive remains of field boundary banks and c110 field clearance cairns, many of which are in linear arrangements. Excavations elsewhere in Scotland have shown that a significant number of these cairns may cover human burials. Parts of a track system in the area may be contemporary with elements of the field system. The area to be scheduled measures a maximum of 250m SW to NE by 515m transversely, the existing modern forestry fences and pylons lying within the area being specifically excluded from the scheduling. The monument, which lies in the Parish of Little Dunkeld and the County of Perth as shown outlined in red on the Plan annexed and executed as relative hereto and which forms part of the subjects [redacted] is hereby included in the Schedule of Monuments appearing to the Secretary of State for Scotland to be of national importance compiled and maintained by him under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Given under the Seal of the Secretary of State for Scotland.
