THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Knockiebae, hut circles 1000m NNE of comprises two hut circles of the Bronze Age or Iron Age situated at the NE end of Slewcarnochan. The larger hut circle is scooped into the hill-slope and measures 7.2m by 6.5m internally within a wall 1.5m thick and 0.3m high. The wall is faced with large stones and the entrance is to the SE. About 10m to the SE is a second hut circle. It measures 2.2m in diameter within a wall 1.6m thick and 0.3m high with an entrance to the SE. The small size of the second structure probably indicates that it is some sort of ancillary structure. The area to be scheduled includes the hut circles and an area around them within which traces of activity associated with their use may be found. The area measures 50m in diameter, centred on the hut circles. The monument, which lies in the Parish of New Luce and the County of Wigtown as shown outlined in red on the Plan annexed and executed as relative hereto and which form part of the subjects described [redacted] is hereby included in the Schedule of Monuments appearing to the Secretary of State for Scotland to be of national importance compiled and maintained by him under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Given under the Seal of the Secretary of State for Scotland.
