THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979  
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Dun Cuier, galleried dun comprises of the well-preserved remains of a galleried dun of middle Iron Age date (c.200 BC to C.200 AD) situated on the top of a small rocky hill. The dun is a circular drystone fortification, 14.5m in overall diameter with walls on average 5m thick. The walls contain a narrow gallery running around most of the circuit, except on the E Side, where the entrance to the dun is located. A low platform 3m across on the N side is the only ancillary structure visible outside the dun. The dun was excavated, although not totally cleared, in 1953-5, and has been filled with rubble to help preserve it. The excavation revealed a second period of occupation in the late Iron Age (c.400 AD to c. 600 AD). The area to be scheduled is circular, 30m in diameter, to include the dun, the outer platform and a small area around in which traces of contemporary activity may survive below the surface. The monument, which lies in the Parish of Barra and the County of Inverness as shown outlined in red on the Plan annexed and executed as relative hereto and which forms part of the subjects

is hereby included in the Schedule of Monuments appearing to the Secretary of State for Scotland to be of national importance compiled and maintained by him under section (1) of the Ancient Monuments and Archaeological Areas Act 1979.

Given under the Seal of the Secretary of State for Scotland.
