THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Tigh Cloiche, chambered cairn 500m SE of Marrogh comprises of the remains of a prehistoric chambered burial cairn at the foot of the SE slope of Marrogh. The cairn is circular in plan, some 23m in diameter and over 4m high. There is an outer kerb of spaced boulders and, on the ESE side, a small funnel-shaped forecourt gives access, via a 4m long lintelled passage, to a circular central chamber 3m in diameter. This is almost full of small stones, but appears to be almost intact, with one of the two large capstones in place and the other dislodged. The capstones rest on a corbelled upper wall. A number of shielings have been built around and against the cairn. The area to be scheduled is circular, 50m in diameter and centred on the cairn, to include the cairn, the shielings and an area around in which evidence for their construction and use may survive. The monument, which lies in the Parish of North Uist and the County of Inverness as shown outlined in red on the Plan annexed and executed as relative hereto

is hereby included in the Schedule of Monuments appearing to the Secretary of State for Scotland to be of national importance compiled and maintained by him under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Given under the Seal of the Secretary of State for Scotland.
