THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979 5670
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Catrine, water works for Catrine Mill 30m S of 9 St Cuthbert's Street comprises the water management system that was built and developed to supply water power to Catrine's cotton mills and bleaching works. The main elements are a weir on the River Ayr, five large ponds known as 'voes', and a series of open and covered lades. There are also the remains of sluices and the foundations of a short aqueduct that carried water from the end of the lade to the wheelhouse. The water management system lies on the north side of Catrine, beginning at the River Ayr to the north-east of the town and extending westwards for almost 1km to terminate about 85m NNW of Mill Square. The first parts of the system were built in 1787, but it was adapted several times before its eventual disuse in the 1970s. The area to be scheduled is irregular on plan, to include the remains described above and an area around them within which evidence relating to the monument's construction, use and abandonment may survive. The scheduling extends up to, and includes, the stone, concrete, and brick walls that bound the voes. The scheduling includes the stone bridge immediately upstream of the north-east voe, and the iron and timber bridge east of the west voe, but excludes the modern bridge east of the west voe. The scheduling also includes the sluices and structures at the outflow on the south side of the west voe, but excludes the above-ground elements of the shed that covers this outflow. To allow for their maintenance, the scheduling specifically excludes the above-ground elements of all fences, street furniture, telegraph and electricity poles, together with the top 300mm of all road surfaces and paths. The monument, which lies in the Parish of Sorn and the County of Ayr as shown in red on the Plan annexed and executed as relative hereto

[redacted]

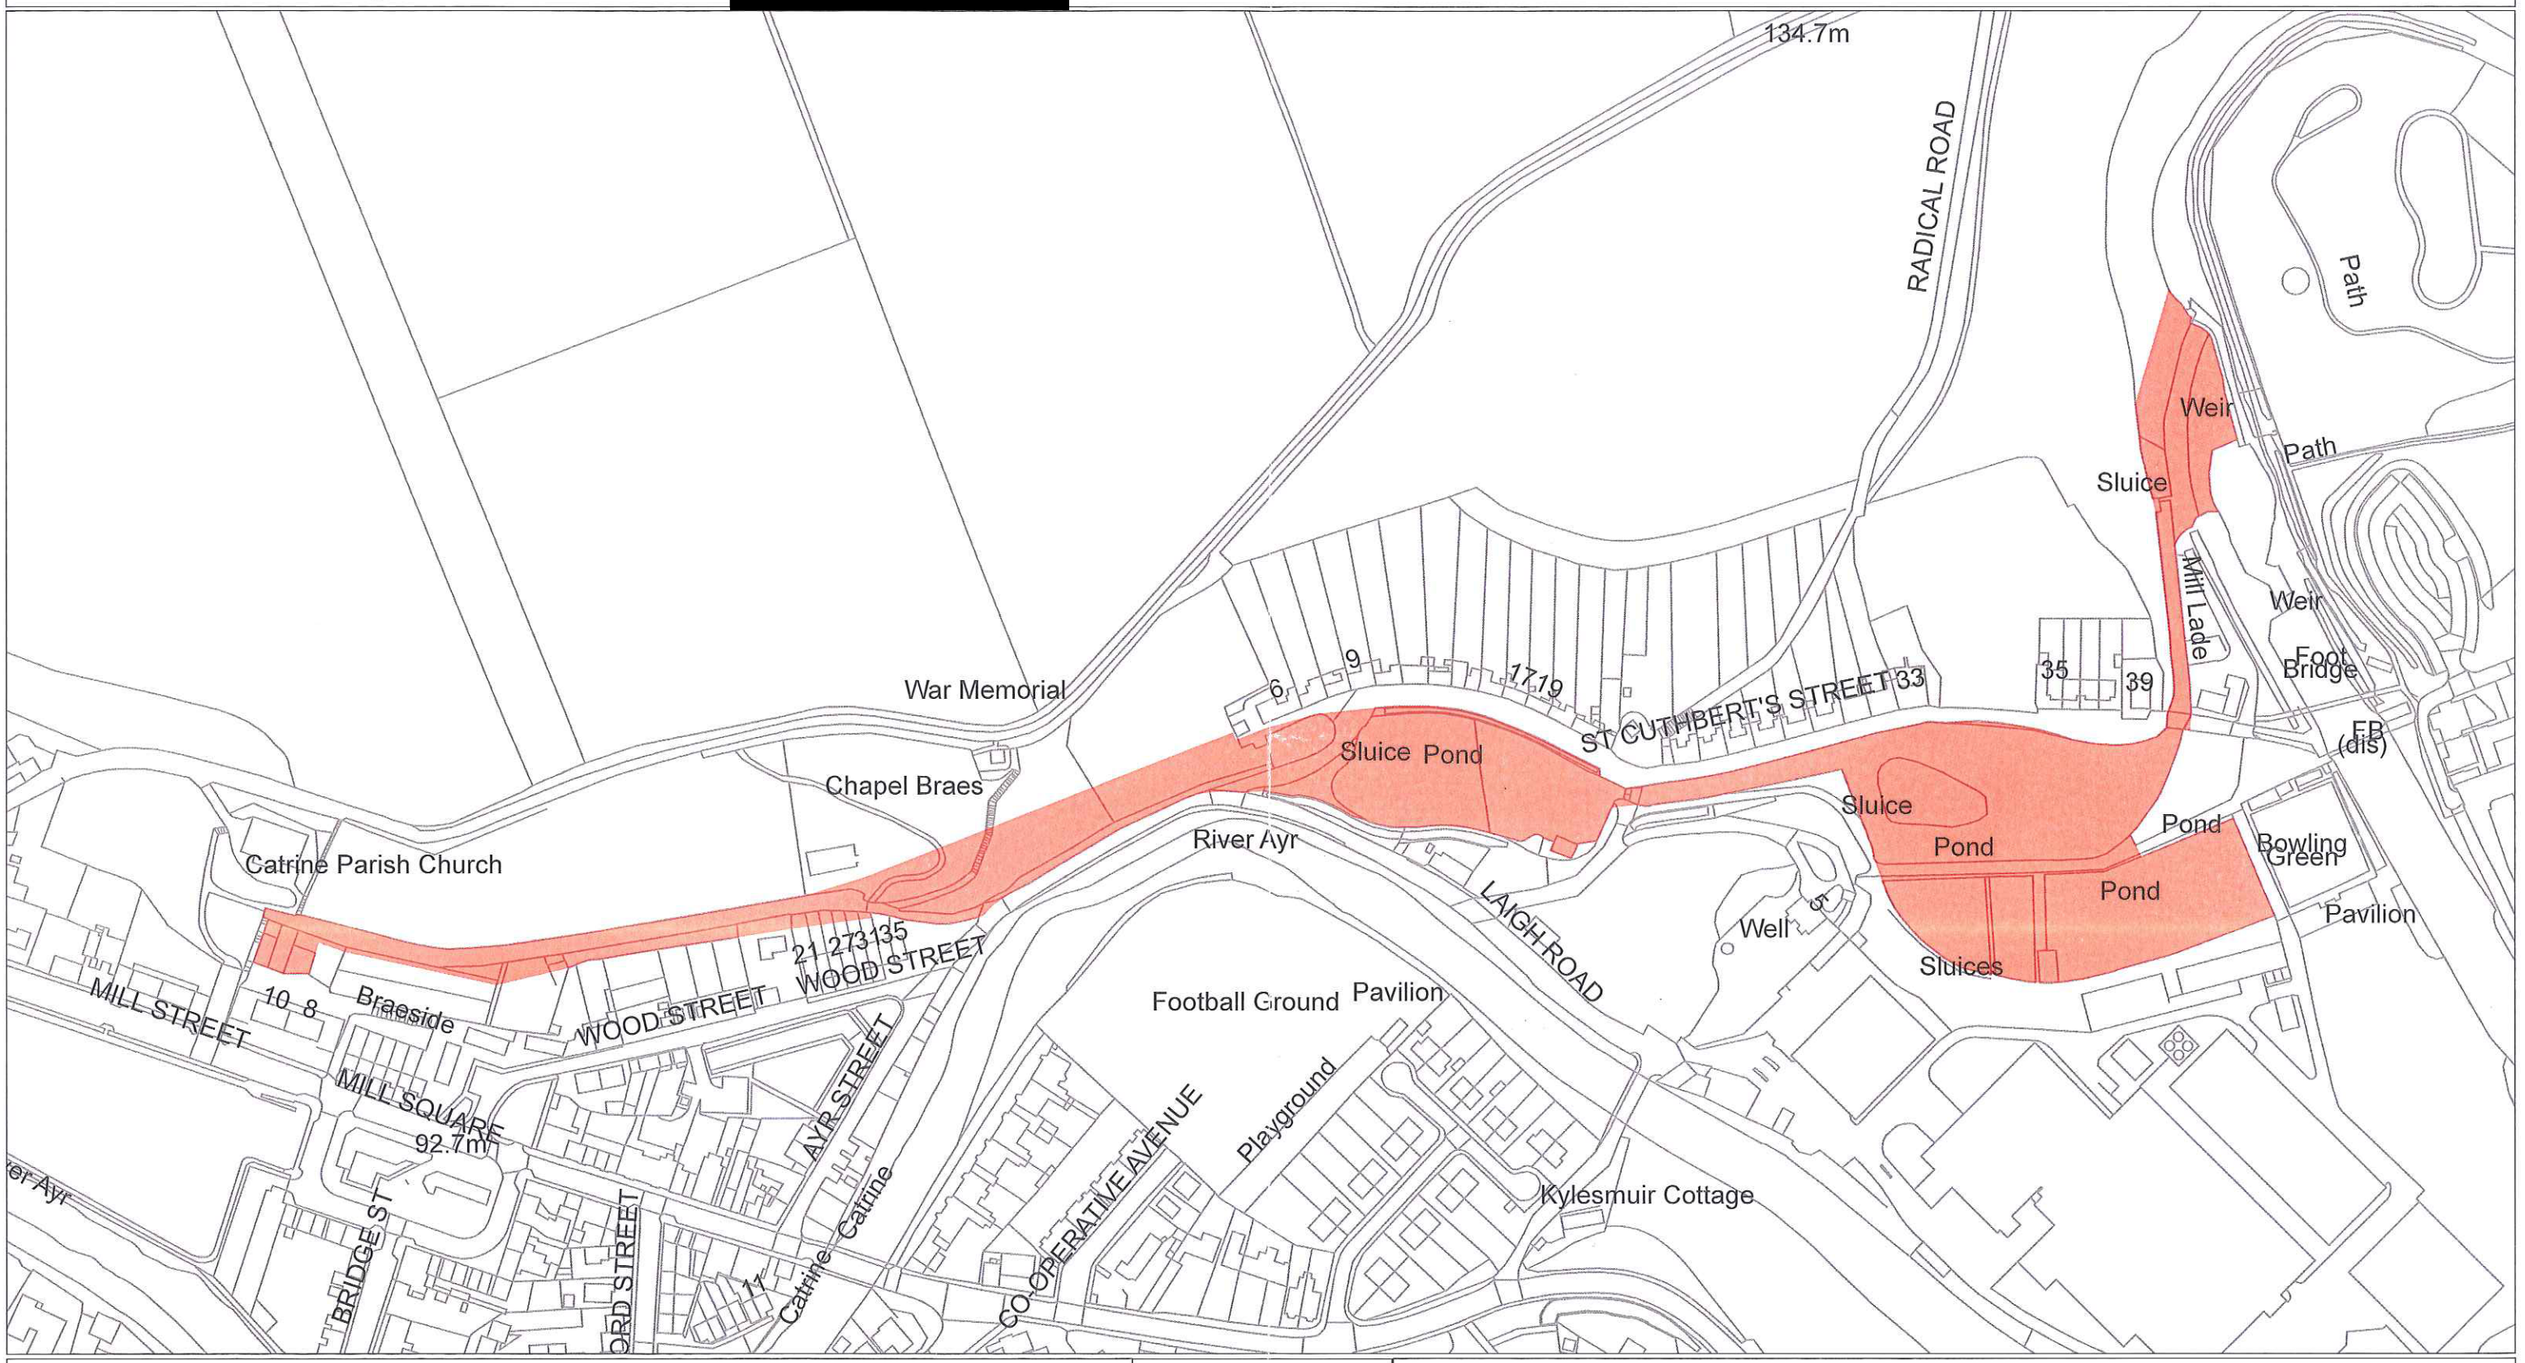

is hereby included in the Schedule of Monuments appearing to the Scottish Ministers to be of national importance compiled and maintained by them under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Subscribed by Deborah Mays, Director of Policy and Outreach with Historic Scotland, being an officer of the Scottish Ministers at Edinburgh on the 22 day of August Two thousand and eleven, before this witness Alasdair Young, of Longmore House, Salisbury Place, Edinburgh.
