THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Antonine Wall, Peel Glen Road to Castlehill comprises a section of the Antonine Wall which runs up onto the top of Castle Hill from the W. It includes the surviving remains of one of the Antonine Wall Roman forts. The Antonine Wall at this location consists of the rampart, the ditch, the berm (area between rampart and ditch) and the upcast mound. The area to be scheduled includes the Antonine Wall rampart, berm, ditch and upcast mound, the fort and its associated ditches, and an area to the N and S where traces of activities associated with the construction and use of the monument may survive. To the SW the scheduled area is defined by the edge of the Peel Glen Road, while to the E it is defined by the edge of the minor road which runs through Castlehill Farm. The Farm and part of the area around it are excluded from the scheduled area. The scheduled area then runs 25m N of the N edge of the Antonine Wall ditch, to include the upcast mound and an area beyond in which traces of activities associated with the construction and use of the Antonine Wall and the fort may survive. The S boundary extends 20m beyond the S edge of the rampart and includes an area beyond the rampart of the fort in which the ditches will survive. This area is likely to include Roman-period deposits and the military way may also lie within this zone. The monument, which lies in the Parish of New Kilpatrick and the County of Dumbarton as shown outlined in red on the Plan annexed and executed as relative hereto

is hereby included in the Schedule of Monuments appearing to the Secretary of State for Scotland to be of national importance compiled and maintained by him under section I(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Given under the Seal of the Secretary of State for Scotland.
