THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Antonine Wall, Railway to Great Western Road, Old Kilpatrick comprises a section of the Antonine Wall which runs across sloping ground from the railway line to Great Western Road just to the north of Old Kilpatrick. The Antonine Wall at this location consists of the rampart, the ditch, the berm (area between rampart and ditch) and the upcast mound. The area to be scheduled measures a maximum of 223m from the furthest E point to the furthest W by 68m N-S, to include the Antonine Wall rampart, berm, ditch and upcast mound and also an area to the N and S where traces of activities associated with the construction and use of the Wall may survive. The SW edge of the scheduled area is defined by the base of the railway embankment and the small quarried area to its E corner is excluded. The NE edge is defined by the base of the road embankment, a boundary and a line projected beyond this boundary. The NW boundary extends 25m beyond the NW margin of the Antonine Wall ditch, to include the upcast mound and an area beyond in which traces of activities associated with the construction and use of the monument may survive. The S boundary extends 20m beyond the S edge of the rampart, to include Roman-period deposits which are likely to survive in this area; the military way may also lie within this 20m zone. The monument, which lies in the Parish of Old Kilpatrick and the County of Dumbarton as shown outlined in red on the Plan annexed and executed as relative hereto [redacted] hereby included in the Schedule of Monuments appearing to the Secretary of State for Scotland to be of national importance compiled and maintained by him under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Given under the Seal of the Secretary of State for Scotland.
