THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979 7064
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Antonine Wall, Mount Pleasant, 190m WSW to 215m SE of Netherclose comprises a stretch of the Antonine Wall surviving as buried remains of the outer mound, ditch, berm and rampart. This stretch of the Antonine Wall follows a broadly ESE-WNW course running from the Gas Governor approximately 190m SE of Netherclose to Mount Pleasant. The area to be scheduled is irregular on plan, to include the remains described above and an area around them within which related material may be expected to be found. To allow for their maintenance, the scheduling specifically excludes the above-ground elements of all modern fences, gates, and stone field walls as well as the above-ground elements of all electricity poles. The monument, which lies in the Parish of Old Kilpatrick and the County of Dumbarton as shown in red on the Plan annexed and executed as relative hereto [redacted], is hereby included in the Schedule of Monuments appearing to the Scottish Ministers to be of national importance compiled and maintained by them under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Subscribed by Malcolm Cooper, Chief Inspector with Historic Scotland, being an officer of the Scottish Ministers at Edinburgh on the 26 day of November Two thousand and nine, before this witness Mairi H Davies, of Longmore House, Salisbury Place, Edinburgh.
