THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Antonine Wall, Golden Hill Park Roman fort, annexe and bathhouse is a section of the Antonine Wall which includes the surviving remains of one of the Antonine Wall forts. The area to be scheduled is a maximum of 270m WNW-ESE by a maximum of 184m N-S, to include the Antonine Wall rampart, berm (area between rampart and ditch), ditch and upcast mound; the fort and annexe and their associated ditches, and an area to the N and S where traces of activities associated with the construction and use of the Wall may survive. The scheduled area is defined on its W side by the boundary of the park. At its NW corner the scheduled area follows the boundary around the Parish Church and then skirts around the War Memorial. The scheduled area then follows property boundaries along the river bank and then runs 30m NE of the N limit of the Antonine Wall ditch, to include the upcast mound and an area beyond it in which traces of activities associated with the construction and use of the Antonine Wall and the fort may survive. The south boundary of the scheduled area is marked by the edge of the park except that the SW corner of the park is excluded. The top 50cm of the surface of the playground and of the paths within the scheduled area is excluded from the scheduling. The monument, which lies in the Parish of Old Kilpatrick and the County of Dumbarton as shown outlined in red on the Plan annexed and executed as relative hereto [redacted], is hereby included in the Schedule of Monuments appearing to the Secretary of State for Scotland to be of national importance compiled and maintained by him under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Given under the Seal of the Secretary of State for Scotland.
