The monument known as Antonine Wall, field boundary S of Boclair to Crow Hill comprises a section of the Antonine Wall which runs from the boundary of Douglas Park Golf Course up on to Crow Hill. The Antonine Wall at this location consists of the rampart, the ditch, the berm (area between the rampart and ditch) and the upcast mound. The area to be scheduled measures a maximum of 750m WNW-ESE by a maximum of 100m N-S, to include the Antonine Wall rampart, berm, ditch and upcast mound and an area around in which traces of activities associated with the construction and use of the monument may survive. The scheduled area is in two sections: the W section is defined on its W by a field boundary, on its S by Boclair Road, while to the N the edge of the scheduled area runs 25m to the N of the N lip of the Antonine Wall ditch. The E section is defined on its W by Boclair Road and to its W by field boundaries on Crow Hill. To the SSW, S and SE the edge of the scheduled area lies 20m S of the S margin of the rampart to include Roman-period deposits which are likely to survive in this area, while to the N the edge of the scheduled area lies 25m to the N of the N lip of the Antonine Wall ditch.
