THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Antonine Wall, Summerston to River Kelvin comprises a section of the Antonine Wall which runs from Summerston Farm to the River Kelvin. The Antonine Wall at this location consists of the rampart, the ditch, the berm (area between the rampart and ditch) and the upcast mound. The area to be scheduled is in two parts which are separated by the cutting for a railway, now dismantled. The N section measures a maximum of 125m WNW-ESE by 65m SW-NE; the E section measures a maximum of 255m NNW-SSE by a maximum of 90m E-W, in both cases including the Antonine Wall rampart, berm, ditch and upcast mound and an area on either side where traces of activities associated with the construction and use of the monument may survive. The N edge of the scheduled area is largely defined by the edge of the enclosure around Summerston Farm, while the S boundary runs along the N bank of the River Kelvin, and includes a portion of the flood embankment there. To the W the boundary lies 20m beyond the position of the W margin of the rampart, to include Roman-period deposits which are likely to survive in this area. To the E it lies 25m E of the E margin of the ditch, to include the upcast mound and an area beyond in which traces of activities associated with the construction and use of the Antonine Wall may survive. The cutting of the dismantled railway is excluded from the scheduled area. The monument, which lies in the Parish of New Kilpatrick and the County of Dumbarton as shown outlined in red on the Plan annexed and executed as relative hereto [redacted] included in the Schedule of Monuments appearing to the Secretary of State for Scotland to be of national importance compiled and maintained by him under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Given under the Seal of the Secretary of State for Scotland.
