THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Antonine Wall, Cawder House access road to canal towing path comprises a section of the Antonine Wall which runs across uneven ground to the E and W of Firhill Cottage. The Antonine Wall at this location consists of the rampart, the ditch, the berm (area between rampart and ditch) and the upcast mound. The area to be scheduled measures a maximum of 510m W-E by a maximum of 70m N-S, to include the Antonine Wall rampart, berm, ditch and upcast mound and an area around in which traces of activities associated with the construction and use of the Antonine Wall may survive. The scheduled area is defined at its W end by the W boundary of the access road to Cawder House and at its E end by a boundary and the edge of the towpath alongside the Forth and Clyde Canal; the E edge of the scheduled area coincides with the W boundary of the edge of the scheduled area for the Canal. The N edge of the scheduled area lies 25m N of the N margin of the Antonine Wall ditch. At the W end, the S edge of the scheduled area lies 20m S of the S margin of the Antonine Wall rampart to include Roman-period deposits which are likely to survive in this area, but at the E end of the scheduled area the S edge lies only 10m S of the Antonine Wall rampart, because some of the deposits in this area have been removed by quarrying. Firhill Cottage and its ancillary buildings and enclosed land and also the modern road are excluded, as is the upper 30cm of the access road to Cawder House. The monument, which lies in the Parish of Cadder and the County of Lanark as shown outlined in red on the Plan annexed and executed as relative hereto [redacted] is hereby included in the Schedule of Monuments appearing to the Secretary of State for Scotland to be of national importance compiled and maintained by him under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Given under the Seal of the Secretary of State for Scotland.
