The monument known as Logierait, fort, souterrains, roundhouses, pits and enclosure comprises a fort, souterrains, roundhouses, pits and an enclosure of prehistoric date, visible as a cropmark on oblique aerial photographs. The monuments lie in arable farmland on a promontory overlooking the River Tay and Tummel, at between 70-100m O.D. The area to be scheduled is in two parts, separated by the public road. The northern area measures a maximum of about 250m SW-NE, by 220m NW-SE. The southern area measures a maximum of about 195m NW-SE by 345m SW-NE. The areas include the visible cropmarks and areas around and between them within which related features may be expected to survive. The elements of modern field boundaries are excluded from the scheduling. The monument, which lies in the Parish of Logierait and the County of Perth as shown outlined in red on the Plan annexed and executed as relative hereto
