THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Prince Charlie's Bridge, military bridge, Dalcapon Wood comprises a bridge of early 18th century date constructed during General Wade's appointment in Scotland. The monument is situated in Dalcapon Wood at about 90m OD and comprises a bridge constructed to carry General Wade's Military Road northwards across an unnamed burn. The bridge represents an example of early 18th century military engineering and architecture and forms one component within an extensive network of military communications and installations constructed in response to the Jacobean uprisings of 1715 and 1719. The area to be scheduled comprises the remains described and an area around them within which related material may be expected to be found. It is irregular in shape measuring 30m NNW-SSE by 10m transversely. The monument, which lies in the Parish of Logierait and the County of Perth as shown outlined in red on the Plan annexed [redacted] is hereby included in the Schedule of Monuments appearing to the Scottish Ministers to be of national importance compiled and maintained by them under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Subscribed by Owen Kelly, Director, Properties in Care with Historic Scotland, being an officer of the Scottish Ministers at Edinburgh on the 21st day of May Two thousand and two, before this witness Lesley Macdonald, of Longmore House, Salisbury Place, Edinburgh.
