THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979 12643
ENTRY IN THE SCHEDULE OF MONUMENTS

The monument known as Antonine Wall, 120m SSW of Woodside Cottage comprises a stretch of the Antonine Wall that survives as a combination of the visible earthworks of the ditch and the buried remains of the outer mound, berm and rampart. Approximately 320m in length, this stretch of the Antonine Wall runs through a large pasture field known as Summerhouse Park. Aligned on a broadly E-W course, the Antonine Wall makes a marked turn to the SW, away from the line of a steep cliff, to ascend higher ground. The area to be scheduled is irregular on plan, to include the remains described and an area around them within which related material may be expected to be found. The scheduling goes up to, but does not include, the post-and-wire boundary fence enclosing the field it lies within. The monument, which lies in the Parish of Bo'ness and Carriden and the County of Falkirk as shown in red on the Plan annexed and executed as relative hereto and which forms part of the subjects described in the [redacted], is hereby included in the Schedule of Monuments appearing to the Scottish Ministers to be of national importance compiled and maintained by them under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Subscribed by Malcolm Cooper, Chief Inspector with Historic Scotland, being an officer of the Scottish Ministers at Edinburgh on the 24 day of June Two thousand and ten, before this witness Lorna Fairholm, of Longmore House, Salisbury Place, Edinburgh.
