THE ANCIENT MONUMENTS AND ARCHAEOLOGICAL AREAS ACT 1979 13038
ENTRY IN THE SCHEDULE OF MONUMENTS

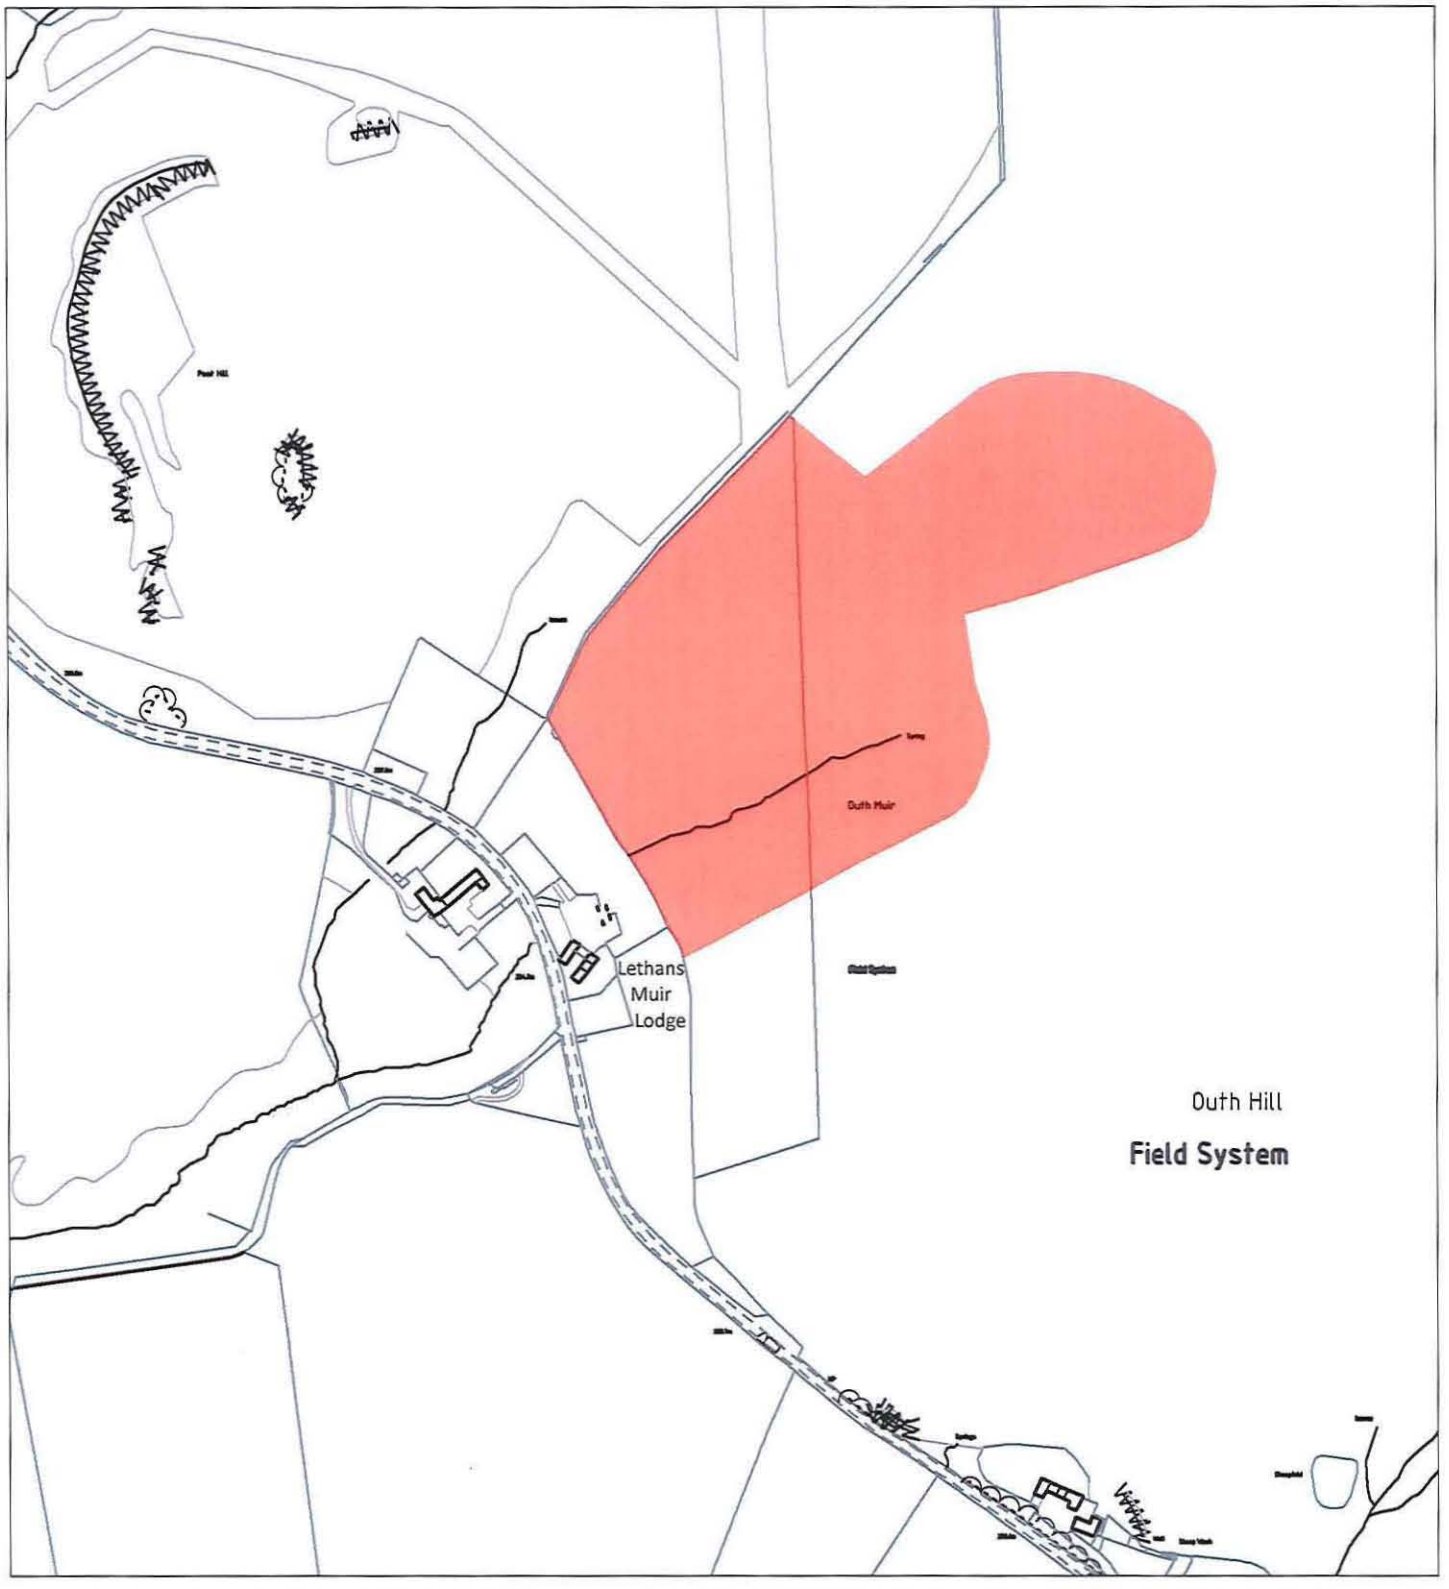

The monument known as Outh Hill, buildings and field system 275m NE of Lethans Muir Lodge comprises the remains of at least three rectangular buildings visible as low turf banks, several square or rectangular folds again defined by turf banks, turf-walled field boundaries, and upstanding rig and furrow cultivation features. The structures and field systems were in use probably in the 18th century, but it is possible that earlier medieval remains also exist. The site lies on SW-facing ground between 275m and 315m above sea level, to the NE of the A823 road at North Lethans. A small watercourse fed by a spring lies around 80m south of the core of the monument. The area to be scheduled is irregular on plan, to include the remains described above and an area around them within which evidence relating to the monument's construction, use and abandonment may survive. On the SW and NW sides, the scheduled area extends up to but excludes modern boundaries comprising walls and post-and-wire fences. The monument, which lies in the Parish of Dunfermline and the County of Fife as shown in red on the Plan annexed and executed as relative hereto [redacted] is hereby included in the Schedule of Monuments appearing to the Scottish Ministers to be of national importance compiled and maintained by them under section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979.

Subscribed by Deborah Mays, Director of Policy and Outreach with Historic Scotland, being an officer of the Scottish Ministers at Edinburgh on the 2 day of November Two thousand and eleven, before this witness Alasdair Young, of Longmore House, Salisbury Place, Edinburgh.
