- Other minor stonework pinning and consolidation.

The secondary work that will be carried out under the Traditional Building Skills project will be soft capping of wallheads. This will be a training activity undertaken by a supervising contractor with trainees. For information Megginch is the primary location of the traditional skills training programme. We feel that initial stabilization of the Rait monument should be undertaken by a skilled team, as per Kinfauns, but we will encourage a young apprentice to be involved if possible.

Full photographic record of work will be undertaken.
