

## Protected Places and Species Assessment

Case ID: 201602059

12 September 2016

Tyndrum, lead mines and associated remains

### Pt A Protected Places

#### 1 Site of special scientific interest

Are the works located within the boundary of a SSSI?  No

**Note: If 'Yes', SNH must be consulted prior to issuing consent.**

#### 2 Natural Sites

|                                                                                                          |                           |
|----------------------------------------------------------------------------------------------------------|---------------------------|
| Are the proposed works directly connected with or necessary for site management for nature conservation? | No<br>If No, go to next Q |
|----------------------------------------------------------------------------------------------------------|---------------------------|

|                                                                                                                                          |          |
|------------------------------------------------------------------------------------------------------------------------------------------|----------|
| Is the proposal likely to have a significant affect on an SPA or SAC? Give details of your reasoning below, identifying any SPA or SACs: | Yes / No |
|------------------------------------------------------------------------------------------------------------------------------------------|----------|

|  |  |
|--|--|
|  |  |
|--|--|

|                                                                                                      |  |
|------------------------------------------------------------------------------------------------------|--|
| If an 'Appropriate Assessment' is required, please enter details below (after consultation with SNH) |  |
|------------------------------------------------------------------------------------------------------|--|

|  |  |
|--|--|
|  |  |
|--|--|

|                                                                                                                                        |    |
|----------------------------------------------------------------------------------------------------------------------------------------|----|
| Will the proposal adversely affect the integrity of the site?<br><b>Note: If 'yes' or 'not sure' the application should be refused</b> | No |
|----------------------------------------------------------------------------------------------------------------------------------------|----|

### Pt B Protected Species

#### 1 Plants

Is there any evidence to suggest the following EPS plants may be present on site?

|                 |    |
|-----------------|----|
| Fern, Killarney | No |
|-----------------|----|

|                |    |
|----------------|----|
| Naiad, Slender | No |
|----------------|----|

|                                 |    |
|---------------------------------|----|
| Plantain, Floating-leaved water | No |
|---------------------------------|----|

|                         |    |
|-------------------------|----|
| Saxifrage, Yellow Marsh | No |
|-------------------------|----|

Is there any evidence to suggest that the following EPS animals may be present on site, or nearby?

|                                                                                                                                |    |
|--------------------------------------------------------------------------------------------------------------------------------|----|
| Bats (all varieties)<br>(For bats only, please give details of your assessment of the likely presence of bats on the monument) | No |
|--------------------------------------------------------------------------------------------------------------------------------|----|

|  |  |
|--|--|
|  |  |
|--|--|

|                  |    |
|------------------|----|
| Scottish Wildcat | No |
|------------------|----|

|                                               |    |
|-----------------------------------------------|----|
| Sand Lizard<br>(only known colony is on Coll) | No |
|-----------------------------------------------|----|

|                                                                                                                                                                                                   |     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Great Crested Newt<br>(Distribution mainly South Scotland, Central belt and Inverness Area)                                                                                                       | No  |
| Common Otter                                                                                                                                                                                      | No  |
| Natterjack Toad<br>(Distribution mainly south coast of Dumfriesshire)                                                                                                                             | No  |
| If 'Yes', what implications do the proposed works have on the species in question?                                                                                                                |     |
|                                                                                                                                                                                                   |     |
| Can the negative impacts be prevented through alteration of plans or attachment of conditions? (Please give details below)                                                                        | N/A |
|                                                                                                                                                                                                   |     |
| If 'No', are the works likely to meet the first two tests prescribed in regulation 44: 1. public health and safety or public interest 2. no satisfactory alternative<br>Please give details below | N/A |
|                                                                                                                                                                                                   |     |
| <b>Note: If 'No' then the application should be refused on the grounds of the impact on EPS.</b>                                                                                                  |     |
| If 'Yes', do SNH consider that the proposed works will be detrimental to the maintenance of the population of the EPS concerned at a favourable conservation status in their natural range?       | N/A |
|                                                                                                                                                                                                   |     |
| <b>Note: If 'Yes' then the application should be refused on the grounds of the impact on EPS.</b>                                                                                                 |     |

**James Bruhn**
