The Ancient Monuments and Archaeological Areas Act 1979

Amended entry in the schedule of monuments

Historic Environment Scotland in exercise of the powers conferred on it by section 1(1) of the Ancient Monuments and Archaeological Areas Act 1979 hereby amends the entry in the statutory schedule of monuments as set out below.

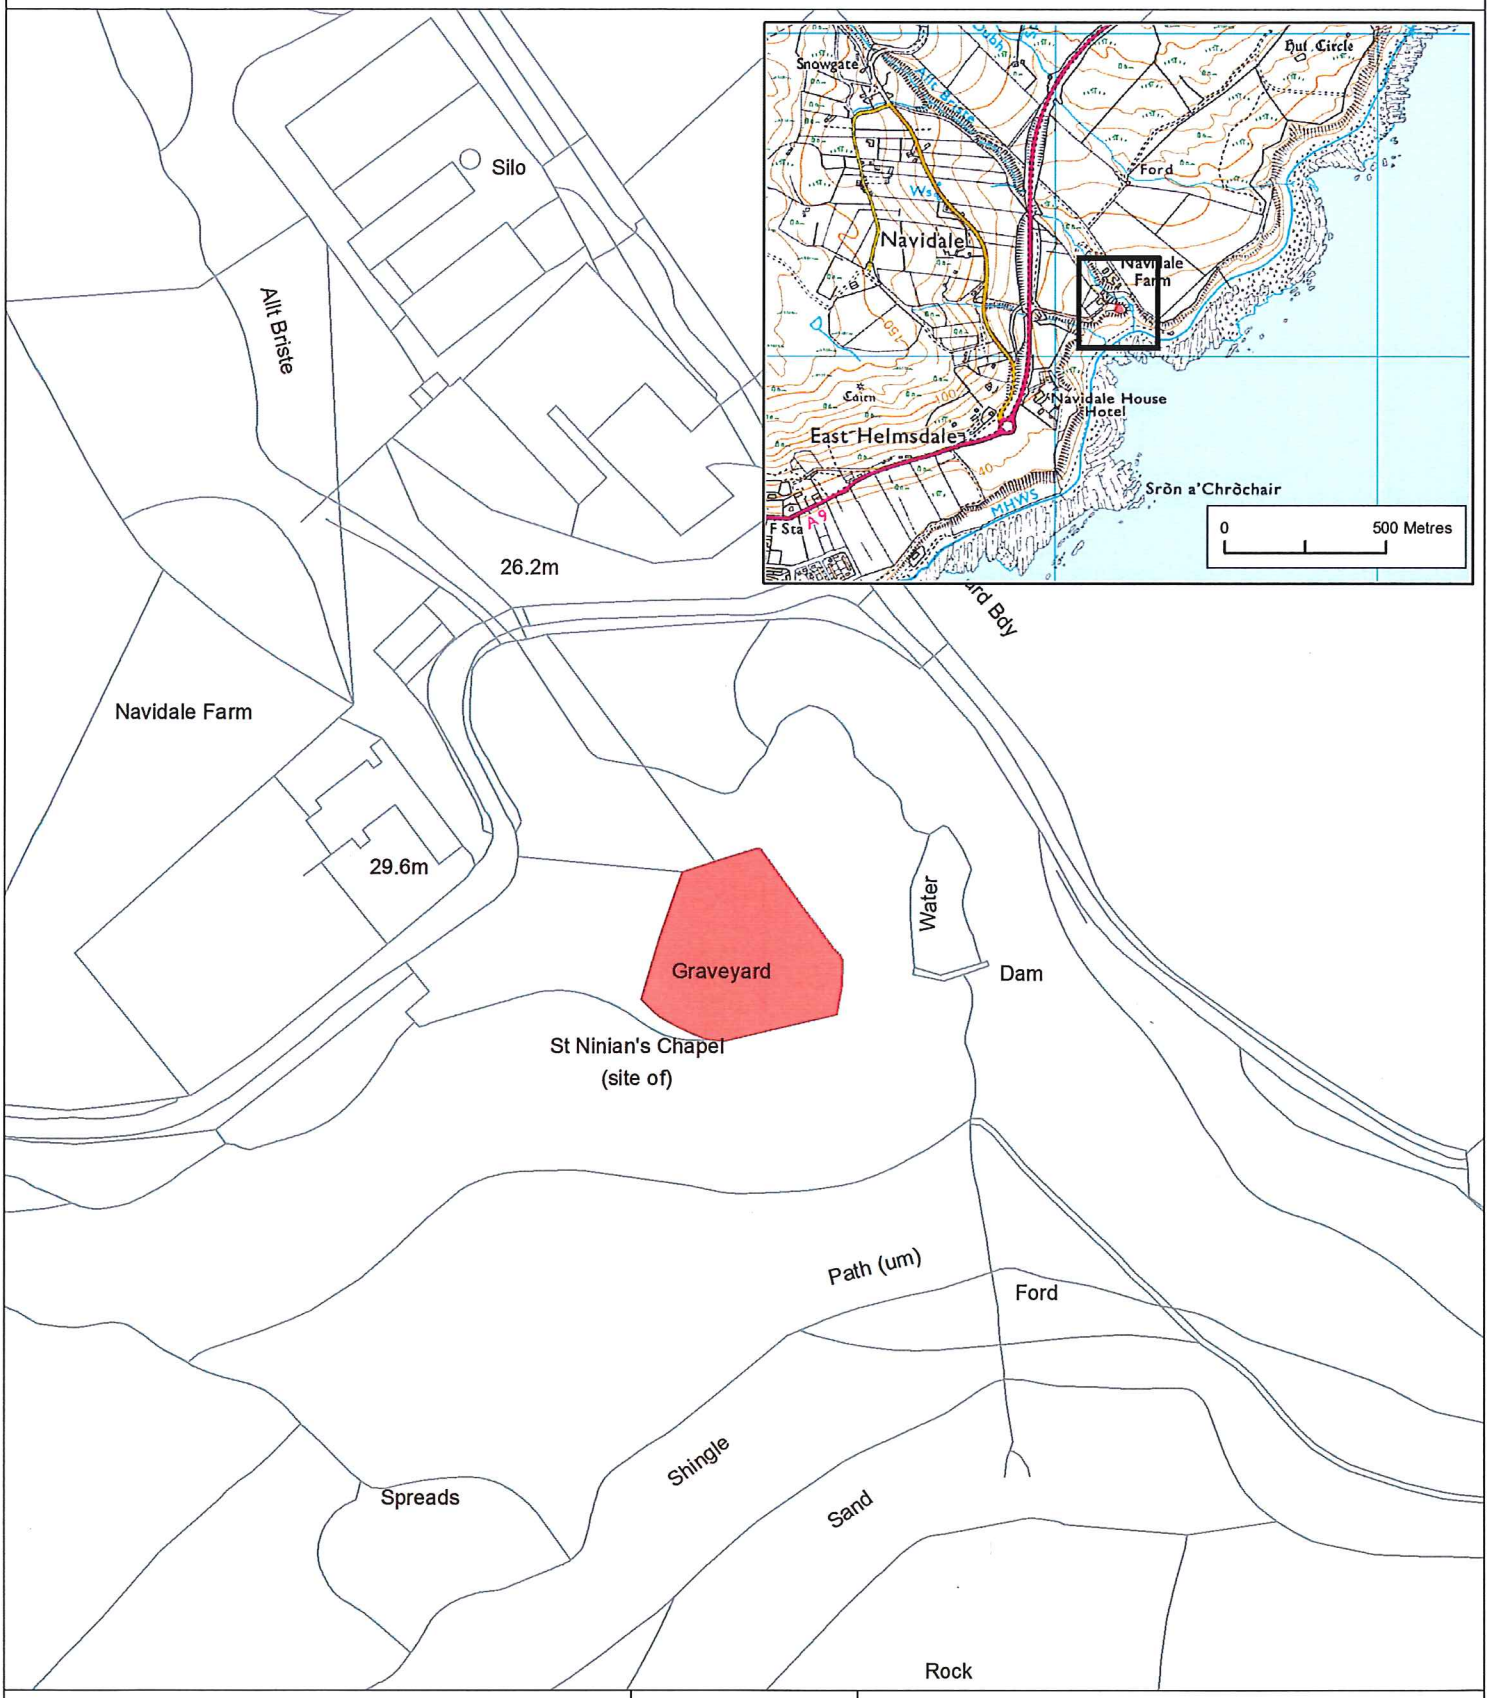

The monument known as **St Ninian's Chapel 70m ESE of Naviedale Farm** comprises the buried remains of a chapel within a burial ground probably founded in the early historic period. The chapel is visible as a slight platform around 0.3m in height within the centre of the graveyard. It is aligned roughly east-west and measures about 18m in length by 8m transversely. The chapel is located at 20m above sea level, in a prominent position on a hillside immediately above the foreshore.

The scheduled area is irregular on plan, to include the remains described above. The scheduled area extends up to, but excludes the surrounding wall to allow for its maintenance. The scheduling also specifically excludes all memorial stones and burial lairs where rights of burial still exist

The monument, which lies in the Parish of Kildonan and the County of Sutherland as shown in red on the plan annexed and executed as relative hereto.
