**4 Summary of proposed works (max 20 words)**

Rebuild that part of the boundary wall bounding the former Orchard which sits on the N side of the drive.

**5 Description of proposed works**

**BACKGROUND:** This application follows on from the previously granted SMC (ref AMH/90189/1; Case ID: 201503271) for the partial rebuild of the boundary wall bounding onto the Orchard. Following excavation of two trial pits under archaeological supervision it was discovered that the original foundation is inadequate to support the existing wall. (see attached WSI report and updated Structural Engineer's report)

**PROPOSAL:** To carefully dismantle the existing boundary wall to its present foundation level, setting

aside the stones for later re-use, under a watching archaeologica brief, building a new foundation in a traditional style off which the wall will be rebuilt, matching the style of build of the original as closely as possible (see attached drawing for further details)
