4 Summary of proposed works (max 20 words)

Replacement of 2 life expired timber jetties with a length of new pontoons with associated anchoring and access provisions

5 Description of proposed works

2 timber Jetties on the Crinan Canal, at a location known as Lock 4, are life expired and have been closed off due to H&S reasons. It is proposed to replace these with the current standard of pontoons to create much needed and useable mooring facilities at this location on the canal. The pontoons will be anchored to the bank with concrete blocks excavated into the embankment.

To enable a suitable and safe access on to these pontoons we propose to install a hinged access gangway (that will be able to accommodate the fluctuation in water levels in the canal)

Scottish Charity No. **SC045925**

VAT No. **GB 221 8680 15**

Anchor arms to secure the pontoon will also be required – these will be in line with the numerous other pontoon fixing arms utilised on the canal.

The works will also include the removal of the existing jetties decking and support structure.
