Ancient Monuments and Archaeological Areas Act 1979
Scheduled Monument Consent Decision Notice

Case ID	**300018655**	**Index no**	**SM3348**
Scheduled Monument	**March Burn to Little Clyde,Roman road**		
Location/ Address	**South Lanarkshire**		
Proposed Works	**Timber harvesting, felling, extraction and stacked within buffer zone.**		

Historic Environment Scotland hereby **grants** scheduled monument consent for the works detailed below, subject to the attached conditions.

Consented Works:

a) felling of trees within the scheduled area, by harvesters initially working from the forest road and then moving into the plantation via adjacent unscheduled ground
b) the creation of an extraction route on the southern edge of the scheduled area for a length of approximately 250m, using brash matting
c) the creation of a temporary stacking area on deep-ploughed land at the edge of the scheduled area

as described in your application which we validated on 31 October 2016 and the following supporting documents:

1) Preliminary ecology Survey FM-ESS-01
2) Work Method Statement MS-22009-2016-001
3) Schedule Monument Harvesting Plan

Conditions referred to above

1. At least two weeks prior to any works commencing on site, a project timetable, including an intended completion date, shall be submitted to Historic Environment Scotland. Any alterations to this timetable shall also be notified to Historic Environment Scotland in advance.

   Reason: to ensure that Historic Environment Scotland have the opportunity to visit and inspect the works in progress.

Reasons for the Decision:

Subject to compliance with the schedule of conditions, the works proposed are considered acceptable in meeting the terms of national policy for scheduled monuments, and also accounting for other material considerations.
