

Ancient Monuments and Archaeological Areas Act 1979 Scheduled Monument Consent Decision Notice

Case ID	300018812	Index no	SM90107
Scheduled Monument	Dumbarton Castle		
Location/ Address	West Dunbartonshire		
Proposed Works	Replacement of existing gully at base of stone channelled burnlet to rear of Governor's House		

Historic Environment Scotland hereby **grants** scheduled monument consent for the works detailed below, subject to the attached condition.

Consented Works:

- a) Replacement of an existing drainage gully at the bottom of a stone channelled drain to the rear of the Governor's House

as described in your application which we validated on 07 December 2016 and the following supporting documents:

- 1) Proposals Drawing 193-107-535
- 2) Dumbarton Castle: Proposed Archaeological Mitigation (HES Cultural Resources Advisor)

Condition referred to above

1. No work requiring scheduled monument consent shall take place within the scheduled area [indicated on the plan supplied with the scheduled monument consent application] until the applicant has secured the initiation of a programme of archaeological work in accordance with a Written Scheme of Investigations (WSI)/project design and has had this WSI approved in writing by Historic Environment Scotland's Heritage Directorate. This should detail how works will be undertaken, recorded, monitored and reported on, including an outline of how the works will be controlled to prevent impacts upon any in situ archaeological deposits or structures encountered. This scheme of works shall be fully implemented during the course of the approved development.

Reason: to ensure that any impacts in archaeological structures and/or deposits is minimised and that archaeological information is recovered and recorded to a satisfactory standard.
