4 Summary of proposed works (max 20 words)

To repair small recess which has been eroded in wall below window opening in east gable of Marischal Suite.

5 Description of proposed works

Over the years visitors have eroded with their feet a small recess in the section of wall beneath the window opening in the east gable of the Marischal Suite. The recess is now being used as a 'step' to allow visitors to lean out of the window opening.

The proposal is to build up the recess using locally sourced stone bedded in lime mortar wall. Built up section to be flush with surrounding wall.

The proposed repair will preserve the integrity of the wall, prevent further erosion of the wall and remove the risk of young children leaning out of the window opening.
