AMENDMENT

Designation Reference: SM6465

Case Reference:300048997

The Ancient Monuments and Archaeological Areas Act 1979

Amended entry in the schedule of monuments

Historic Environment Scotland in exercise of the powers conferred on it by section 1(5) of the Ancient Monuments and Archaeological Areas Act 1979 hereby amends the entry in the statutory schedule of monuments as set out below.

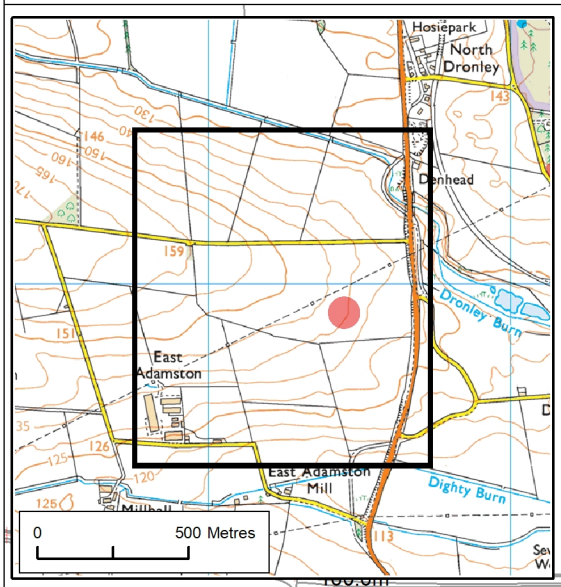

The monument known as **East Adamston, souterrain and unenclosed settlement 670m NNE of** comprises the remains of a souterrain and an unenclosed settlement, thought to be Iron Age in date. The buried archaeological remains are visible as cropmarks on oblique aerial photographs. The monument is located on arable farmland at the eastern end of a low-lying ridge at 140m OD in the Parish of Auchterhouse and the County of Angus.

The scheduled area is circular, measuring 110m in diameter. It includes the remains described above and an area around within which evidence relating to the monument's construction, use and abandonment is expected to survive, as shown in red on the plan annexed and executed as relative hereto.

This entry supersedes the entry in the schedule of monuments for the monument known then as **East Adamston Mill, souterrain 600m NNE of** as referred to in the entry in the schedule of monuments by the Secretary of State for Scotland in respect of the monument dated 3 October 1996 and recorded in the General Register of Sasines for the County of Angus on 11 April 1997.

Authorised by Allan Rutherford, Deputy Head of Designations with Historic Environment Scotland on 14/09/2021.

This is the plan referred to in the entry in the Schedule affecting:
East Adamston, souterrain and unenclosed settlement 670m NNE of
